

## **Product datasheet for TA382337**

## Product datasneet for TA36233

## **TBCC Rabbit Polyclonal Antibody**

**Product data:** 

**Product Type:** Primary Antibodies

**Applications:** ICC/IF, WB

Recommended Dilution: WB,1:500 - 1:2000

IF,1:50 - 1:200

Reactivity: Human, Mouse, Rat

Modifications: Unmodified

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

**Immunogen:** Recombinant fusion protein containing a sequence corresponding to amino acids 1-346 of

human TBCC (NP\_003183.1).

**Formulation:** Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

**Concentration:** lot specific

**Purification:** Affinity purification

Conjugation: Unconjugated

**Store** at -20°C. Avoid freeze / thaw cycles.

**Stability:** Shelf life: one year from despatch.

**Predicted Protein Size:** 39kDa

Gene Name: tubulin folding cofactor C

Database Link: Entrez Gene 6903 Human

Q15814

**Background:** Cofactor C is one of four proteins (cofactors A, D, E, and C) involved in the pathway leading to

correctly folded beta-tubulin from folding intermediates. Cofactors A and D are believed to

play a role in capturing and stabilizing beta-tubulin intermediates in a quasi-native confirmation. Cofactor E binds to the cofactor D/beta-tubulin complex; interaction with cofactor C then causes the release of beta-tubulin polypeptides that are committed to the

native state. [provided by RefSeq, Jul 2008]
