

Product datasheet for TA382931

beta III Tubulin (TUBB3) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IP, WB

Recommended Dilution: WB,1:500 - 1:2000

IP,1:50 - 1:100

Reactivity: Human, Mouse, Rat

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen:Recombinant protein of human βIII-Tubulin/β3-Tubulin.Formulation:Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

Concentration: lot specific

Purification: Affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C. Avoid freeze / thaw cycles.

Stability: Shelf life: one year from despatch.

Predicted Protein Size: 42kDa/50kDa

Gene Name: tubulin beta 3 class III

Database Link: Entrez Gene 10381 Human

Q13509

Background: This gene encodes a class III member of the beta tubulin protein family. Beta tubulins are one

of two core protein families (alpha and beta tubulins) that heterodimerize and assemble to form microtubules. This protein is primarily expressed in neurons and may be involved in neurogenesis and axon guidance and maintenance. Mutations in this gene are the cause of congenital fibrosis of the extraocular muscles type 3. Alternate splicing results in multiple

transcript variants. A pseudogene of this gene is found on chromosome 6.

Synonyms: beta-4; MC1R; TUBB4
