# Product datasheet for TA389506

### Anti-SLAMF5 antibody(DMC286), IgG1 Chimeric mAb

### **Product data:**

Applications:FCRecommended DilutionFlow Cyt 1:100Reactivity:HumanHost:RabitHoncolonalMonoclonalClonality:MonoclonalFormulation:Lot SpecificPurification:UnconjugatedForngustion:UnconjugatedStorage:Stora et -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not interded for use within a month, aliquot and store at -80°C (Avoid repeated freezing and for use within a month, aliquot and store at -80°C (Avoid repeated freezing and for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized antibodies are shipped at ambient temperature.Stability:12 months from date of despatchBackground:Shis gene encodes a membrane glycoprotein that is a member of the signaling lymphoryce signaling in those cells. Alternate splicing results in multiple transcript variants.Synonyms:CD84SLAMSFLAMSF	Product Type:	Primary Antibodies
Reactivity:HumanHost:RabbitClonality:MonoclonalFormulation:1XPBSConcentration:Lot specificPurification:Purified from cell culture supernatant by affinity chromatographyConjugation:UnconjugatedStorage:Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).Lyophilized antibodies are shipped at ambient temperature.Stability:12 months from date of despatchBackground:This gene encodes a membrane glycoprotein that is a member of the signaling lymphocyte activation molecule (SLAM) family. This family forms a subset of the larger CD2 cell-surface receptor Ig superfamily. The encoded protein is a homophilic adhesion molecule that is expressed in numerous immune cells types and is involved in regulating receptor-mediated signaling in those cells. Alternate splicing results in multiple transcript variants.	Applications:	FC
Host:RabbitHost:RabbitClonality:MonoclonalFormulation:1XPBSConcentration:Lot specificPurification:Purified from cell culture supernatant by affinity chromatographyConjugation:UnconjugatedStorage:Store at -20°C to -80°C for 12 months in lyophilized form.
