| Product Type:           | Primary Antibodies   |
|-------------------------|--|
| Applications:           | WB   |
| Recommended Dilution:   | WB: 1:1000~1:2000 IP: 1:50~1:200   |
| Reactivity:             | Human  |
| Host:                   | Rabbit   |
| lsotype:                | IgG  |
| Clonality:              | Polyclonal   |
| Immunogen:              | Synthetic peptide, corresponding to Human Caspase-9.   |
| Specificity:            | Caspase-9 (T125) polyclonal antibody detects endogenous levels of Caspase-9 protein.   |
| Formulation:            | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2.  |
| Concentration:          | 1mg/ml   |
| Conjugation:            | Unconjugated   |
| Storage:                | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles.   |
| Stability:              | 1 year   |
| Predicted Protein Size: | ~ 37, 40/40, 46 kDa  |
| Gene Name:              | caspase 9  |
| Database Link:          | <u>Entrez Gene 842 Human</u><br><u>P55211</u>  |
| Background:             | Caspase-9 (ICE-LAP6, Mch6) is an important member of the cysteine aspartic acid protease (caspase) family. Upon apoptotic stimulation, cytochrome c released from mitochondria associates with the 47 kDa procaspase-9/Apaf-1. Apaf-1 mediated activation of caspase-9 involves intrinsic proteolytic processing resulting in cleavage at Asp315 and producing a p35 subunit. Another cleavage occurs at Asp330 producing a p37 subunit that can serve to amplify the apoptotic response. Cleaved caspase-9 further processes other caspase members, including caspase-3 and caspase-7, to initiate a caspase cascade, which leads to apoptosis. |
| Synonyms:               | APAF-3; Apoptotic protease-activating factor 3; Apoptotic protease Mch-6; CASP-9; Caspase-9 subunit p10; Caspase-9 subunit p35; ICE-LAP6; ICE-like apoptotic protease 6  |

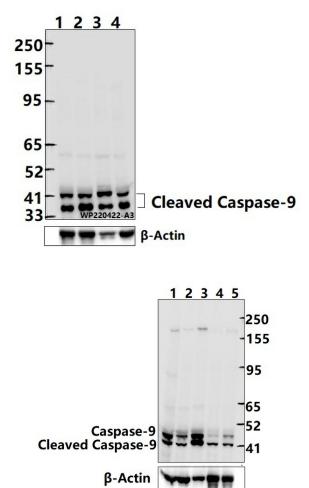

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

Note:

For research use only, not for use in diagnostic procedure.
