| Product Type: | Primary Antibodies |
|-------------------------|---|
| Applications: | WB |
| Recommended Dilution: | WB:1:500~1:1000 |
| Reactivity: | Human, Mouse, Rat |
| Host: | Rabbit |
| lsotype: | IgG |
| Clonality: | Polyclonal |
| Immunogen: | Synthetic phosphopeptide derived from human PKC δ around the phosphorylation site of Threonine 505. |
| Specificity: | p-PKC δ (T505) polyclonal antibody detects endogenous levels of PKC δ protein only when phosphorylated at Thr505. |
| Formulation: | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2 |
| Concentration: | 1mg/ml |
| Conjugation: | Unconjugated |
| Storage: | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles. |
| Stability: | 1 year |
| Predicted Protein Size: | ~ 80 kDa |
| Gene Name: | protein kinase C delta |
| Database Link: | <u>Entrez Gene 5580 Human</u> <u>Q05655</u> |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

| | PKC delta (PRKCD) Rabbit Polyclonal Antibody – TA392654M |
|-------------|--|
| Background: | Protein Kinase C delta (PKC delta) is a 78 kDa member of the novel group (nPKCs: sensitive to diacylglycerol, phosphatidylserine, and phorbol esters) of the PKC family of serine/threonine kinases that are involved in a wide range of physiological processes including mitogenesis, cell survival and transcriptional regulation. PKC delta is an ubiquitously expressed PKC isozyme that has been implicated in the regulation of multiple cellular processes including cell cycle progression and apoptosis. Autophosphorylation of serine 664 (serine 662 in mouse and rat) contributes to PKC delta activity. Serum dependent phosphorylation of serine 664 is mediated by mTOR pathway, is protected from dephosphorylation by phosphorylated threonine 505 in the activation loop, and is implicated in prolactin signaling. |
| Synonyms: | nPKC-delta; PKCδ; PRKCD; Protein kinase C delta type; SDK1; Sphingosine-dependent protein kinase-1; Tyrosine-protein kinase PRKCD |
| Note: | For research use only, not for use in diagnostic procedure. |
