# Product datasheet for TA392756

# **NFIL3 Rabbit Polyclonal Antibody**

# **Product data:**

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	WB: 1:500~1:1000
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
lsotype:	lgG
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to amino acids 32-86 of Human E4BP4.
Specificity:	E4BP4 (E65) polyclonal antibody detects endogenous levels of E4BP4protein.
Formulation:	Rabbit lgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2
Concentration:	1mg/ml
Conjugation:	Unconjugated
Storage:	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles.
Stability:	1 year
Predicted Protein Size:	~ 60 kDa
Gene Name:	nuclear factor, interleukin 3 regulated
Database Link:	<u>Entrez Gene 4783 Human</u> <u>Q16649</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

#### **GRIGENE** NFIL3 Rabbit Polyclonal Antibody – TA392756

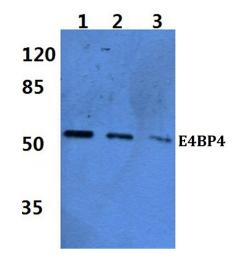

Background:E4BP4, also known as NFIL3, functions as a transcriptional repressor and is a member of the<br/>basic leucine zipper (bZIP) transcription factor family. E4BP4 binds with high specificity to the<br/>E4 ATF, which is a DNA sequence traditionally targeted by the ATF/CREB family of<br/>transcription factors. A 65 amino acid segment located in the carboxy-terminus of E4BP4<br/>interacts specifically with the TBP binding protein Dr1. In the suprachiasmatic nucleus,<br/>circadian center and liver, E4BP4 competes with PAR proteins for DNA binding via a<br/>reciprocating mechanism. The phase expression of E4BP4 correlates with the circadian cycle<br/>and represses transcription of genes otherwise activated by PAR transcription regulators.<br/>E4BP4 also plays an important role in an IL-3-mediated signaling pathway that is responsible<br/>for the survival of B cell progenitors. The gene encoding human E4BP4 maps to chromosome<br/>9q22.

# Synonyms:E4 promoter-binding protein 4; E4 promoter binding protein 4; E4BP 4; E4BP4; E4BP4 protein;<br/>IL3BP 1; IL3BP1; Interleukin-3 promoter transcriptional activator; Interleukin-3-binding<br/>protein 1; Interleukin 3 binding protein 1; Interleukin 3 promoter transcriptional activator;<br/>NFIL 3; NFIL3; NFIL 3A; NFIL3A; Nuclear factor interleukin-3-regulated protein; Nuclear factor<br/>interleukin 3 regulated; Transcriptional activator NF-IL3A; Transcriptional activator NF IL3A
