

Product datasheet for TA396987S

Alpha-amylase Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: ELISA, IP, WB

Recommended Dilution: WB: 1:500 - 1:5,000

ELISA: 1:5,000 - 1:20,000

Reactivity: Bacillus amyloliquefacies

Host: Rabbit

Clonality: Polyclonal

Immunogen: Anti-Alpha Amylase Antibody was produced by repeated immunizations with Bacillus

amyloliquefaciens a-Amylase protein.

Specificity: Alpha Amylase Antibody is an IgG fraction antibody purified from monospecific antiserum by

a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Rabbit Serum as well as purified and partially purified a-Amylase [Bacillus amyloliquefaciens]. Cross

reactivity against a-Amylase from other tissues and species is unknown.

Formulation: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Concentration: 1.0 mg/mL - lot specific

Conjugation: HRP

Storage: Store vial at -20° C or below prior to opening. This vial contains a relatively low volume of

reagent (25 μ L). To minimize loss of volume dilute 1:10 by adding 225 μ L of the buffer stated above directly to the vial. Recap, mix thoroughly and briefly centrifuge to collect the volume at the bottom of the vial. Use this intermediate dilution when calculating final dilutions as recommended below. Store the vial at -20°C or below after dilution. Avoid cycles of freezing

and thawing.

Stability: Expiration date is one (1) year from date of receipt.

Alpha-amylase Rabbit Polyclonal Antibody - TA396987S

Background: Anti-Alpha Amylase Antibody detects Alpha Amylase. α-Amylase is an enzyme that hydrolyses

alpha-bonds of large alpha-linked polysaccharides, such as starch and glycogen, yielding glucose and maltose. Anti-Alpha Amylase Antibody is ideal for investigators involved in Cell

Signaling.

Synonyms: rabbit anti-Alpha Amylase Antibody Peroxidase Conjugation, HRP conjugated rabbit anti-

Alpha Amylase Antibody, Alpha-amylase, 1,4-alpha-D-glucan glucanohydrolase

Note: Alpha Amylase Peroxidase conjugate antibody has been tested by ELISA and western blot and

is assayed against 1.0 ug of Alpha Amylase [Bacillus amyloliquefaciens] in a standard capture ELISA using ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:2,000 to 1:10,000 of

the reconstitution concentration is suggested for this product.
