Product datasheet for TA421198AM

CL2A Rabbit Monoclonal Antibody [Clone ID: 1G9]

Product data:

| Product Type: | Primary Antibodies |
|------------------------|---|
| Clone Name: | 1G9 |
| Applications: | ELISA |
| Recommended Dilution: | ELISA 1:5000-10000 |
| Host: | Rabbit |
| lsotype: | IgG |
| Clonality: | Monoclonal |
| Reconstitution Method: | Reconstitute with sterile, low-endotoxin water. See the COA for more details |
| Concentration: | Lot specific |
| Purification: | Purified from cell culture supernatant by affinity chromatography |
| Conjugation: | Biotin |
| Storage: | Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing) |
| Stability: | Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature. |
| Background: | CL2A is a crucial component in antibody-drug conjugate (ADC) therapy, acting as a chemical linker that connects a potent DNA topoisomerase I inhibitor, SN-38, to an antibody. Representing Cysteine-Linked 2-Aminoethyl, CL2A features a complex structure with a PEG8 chain, a triazole ring, a PABC-peptide, and a maleimide group. The maleimide group binds to a cysteine residue on the antibody, facilitating targeted drug delivery. Designed to release SN- 38 in acidic cancer cell environments, CL2A induces DNA damage and cell death. This versatile linker is employed in ADCs targeting various antigens like Trop-2 or HER2, tailored to specific cancer types. |

Product images:

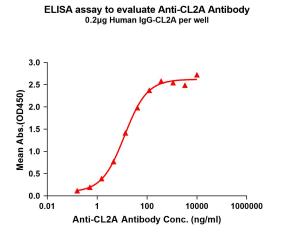

Figure 1. Elisa plates were pre-coated with IgG-CL2A (0.2µg/per well). Serial diluted anti-CL2A monoclonal antibody ([TA421198]) solutions were added, washed, and incubated with secondary antibody before Elisa reading. From above data, the EC50 for anti-CL2A monoclonal antibody binding with IgG-CL2A is 12.57ng/ml.
