

Product datasheet for TA421230AM

Anti-ICAM-1 (bersanlimab biosimilar) mAb, Biotinylated

Product data:

Product Type: Primary Antibodies Applications: ELISA, FC Recommended Dilution: ELISA 1:5000-10000 FC 1:100 **Reactivity:** Human Host: Human lgG1 Isotype: **Clonality:** Monoclonal Formulation: Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. **Reconstitution Method:** 1. Before opening the tube cap, centrifuge the sample tube at 5000g for 3-5min at room temperature to ensure the lyophilized sample settles down at the bottom of the tube. 2. Calculate the volume for reconstitution (in µL) using the formula: [Quantity (mg)/Concentration (mg/mL)]x1000 3. Dissolve the lyophilized protein sample in sterile water based on the calculated volume (μ L) After adding sterile water, cover the lid and mix by gently tapping the tube 5-10 times. Note: Do not vortex or vigorously pipette the sample. **Concentration:** Lot specific **Conjugation:** Biotin Stability: 12 months from date of dispatch Database Link: P06731 **Background:**

d: Research grade biosimilar. Not for use in therapeutic or diagnostic procedures for humans or animals.
