

# Product datasheet for TA421340AM

## Anti-GPRC5D(LM305 biosimilar) mAb, Biotinylated

### **Product data:**

#### **Product Type: Primary Antibodies** FC **Applications:** Recommended Dilution: FC 1:100 **Reactivity:** Human Humanized Host: Isotype: lgG1 Monoclonal **Clonality:** Formulation: Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. **Reconstitution Method:** 1. Before opening the tube cap, centrifuge the sample tube at 5000g for 3-5min at room temperature to ensure the lyophilized sample settles down at the bottom of the tube. 2. Calculate the volume for reconstitution (in µL) using the formula: [Quantity (mg)/Concentration (mg/mL)]x1000 3. Dissolve the lyophilized protein sample in sterile water based on the calculated volume ( $\mu$ L) After adding sterile water, cover the lid and mix by gently tapping the tube 5-10 times. Note: Do not vortex or vigorously pipette the sample. Concentration: Lot specific **Conjugation:** Biotin Stability: 12 months from date of dispatch Database Link: Q9NZD1 Background: Research grade biosimilar. Not for use in therapeutic or diagnostic procedures for humans or animals.

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
