Cytokeratin 8 (KRT8) Mouse Monoclonal Antibody (HRP conjugated) [Clone ID: OTI1B9]

Product data:

Product Type: Primary Antibodies

Clone Name: OTI1B9
Applications: IF, WB

Recommended Dilution: WB 1:2500~5000, IF 1:100

Reactivity: Human, Dog, Monkey, Mouse, Rat

Host: Mouse Isotype: IgG2a

Clonality: Monoclonal

Immunogen: Human recombinant protein fragment corresponding to amino acids 91-381 of human CK8

(NP_002264) produced in E.coli.

Formulation: PBS (pH 7.3) containing 1% BSA, 50% glycerol.

Concentration: 0.5 mg/ml

Purification: Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography

(protein A/G)

Conjugation: HRP

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Predicted Protein Size: 53.5 kDa

Gene Name: keratin 8

Database Link: NP 002264

Cytokeratin 8 (KRT8) Mouse Monoclonal Antibody (HRP conjugated) [Clone ID: OTI1B9] – TA500020BM

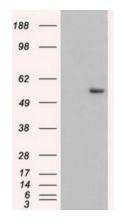

Background:

Keratin 8 is a member of the type II keratin family clustered on the long arm of chromosome 12. Type I and type II keratins heteropolymerize to form intermediate-sized filaments in the cytoplasm of epithelial cells. The product of this gene typically dimerizes with keratin 18 to form an intermediate filament in simple single-layered epithelial cells. This protein plays a role in maintaining cellular structural integrity and also functions in signal transduction and cellular differentiation. Mutations in this gene cause cryptogenic cirrhosis.

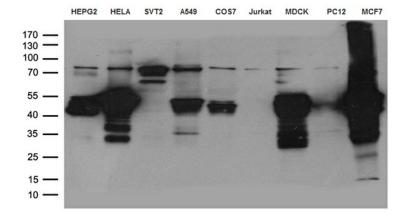

Synonyms: CARD2; CK-8; CK8; CYK8; K2C8; K8; KO

Protein Families: Druggable Genome

Product images:

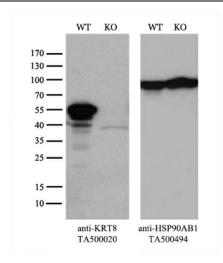

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY KRT8 ([RC209570], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-KRT8. Positive lysates [LY419425] (100ug) and [LC419425] (20ug) can be purchased separately from OriGene.

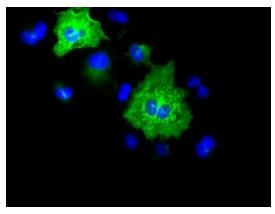

Western blot analysis of extracts (35ug) from 9 different cell lines by using anti-KRT8 monoclonal antibody (HepG2: human; HeLa: human; SVT2: mouse; A549: human; COS7: monkey; Jurkat: human; MDCK: canine; PC12: rat; MCF7: human) (1:500).

Cytokeratin 8 (KRT8) Mouse Monoclonal Antibody (HRP conjugated) [Clone ID: OTI1B9] – TA500020BM

Equivalent amounts of cell lysates (10 ug per lane) of wild-type Hela cells (WT, Cat# LC810HELA) and KRT8-Knockout Hela cells (KO, Cat# [LC810123]) were separated by SDS-PAGE and immunoblotted with anti-KRT8 monoclonal antibody [TA500020], (1:2000. Then the blotted membrane was stripped and reprobed with anti-HSP90AB1 antibody ([TA500494]) as a loading control.

Anti-KRT8 mouse monoclonal antibody ([TA500020]) immunofluorescent staining of COS7 cells transiently transfected by pCMV6-ENTRY KRT8 ([RC209570]).
