

## Product datasheet for **TA500074**

### Apolipoprotein M (APOM) Mouse Monoclonal Antibody [Clone ID: OTI3H3]

#### Product data:

Product Type:	Primary Antibodies
Clone Name:	OTI3H3
Applications:	IHC
Recommended Dilution:	IHC 1:50
Reactivity:	Human
Host:	Mouse
Isotype:	IgG2b
Clonality:	Monoclonal
Immunogen:	Recombinant protein expressed in E.coli corresponding to amino acids 23-188 of human APOM
Formulation:	PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.
Concentration:	0.85 mg/ml
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	21.1 kDa
Gene Name:	apolipoprotein M
Database Link:	<a href="#">NP_061974</a> <a href="#">Entrez Gene 55937 Human</a> <a href="#">O95445</a>
Background:	The APOM is an apolipoprotein and member of the lipocalin protein family. It is found associated with high density lipoproteins and to a lesser extent with low density lipoproteins and triglyceride-rich lipoproteins. The encoded protein is secreted through the plasma membrane but remains membrane-bound, where it is involved in lipid transport. Two transcript variants encoding two different isoforms have been found for this gene, but only one of them has been fully characterized
