LDHA Mouse Monoclonal Antibody [Clone ID: OTI2B11]

Product data:

Product Type: Primary Antibodies

Clone Name: OTI2B11
Applications: IHC, IP, WB

Recommended Dilution: WB 1:5000, IHC 1:50, IP 2ug/500ul

Reactivity: Human, Mouse

Host: Mouse Isotype: IgG1

Clonality: Monoclonal

Immunogen: Full length human recombinant protein of human LDHA (NP_005557) produced in HEK293T

cell

Formulation: PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.

Concentration: 1 mg/ml

Purification: Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography

(protein A/G)

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Predicted Protein Size: 36.5 kDa

Gene Name: lactate dehydrogenase A

Database Link: NP 005557

Entrez Gene 16828 MouseEntrez Gene 3939 Human

P00338

Background: The protein encoded by this gene catalyzes the conversion of L-lactate and NAD to pyruvate

and NADH in the final step of anaerobic glycolysis. The protein is found predominantly in muscle tissue and belongs to the lactate dehydrogenase family. Mutations in this gene have been linked to exertional myoglobinuria. Multiple transcript variants encoding different isoforms have been found for this gene. The human genome contains several non-

transcribed pseudogenes of this gene. [provided by RefSeq]

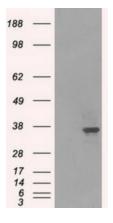

Synonyms: GSD11; HEL-S-133P; LDHM; PIG19

Protein Families: Druggable Genome

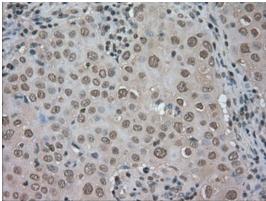

Protein Pathways: Cysteine and methionine metabolism, Glycolysis / Gluconeogenesis, Metabolic pathways,

Propanoate metabolism, Pyruvate metabolism

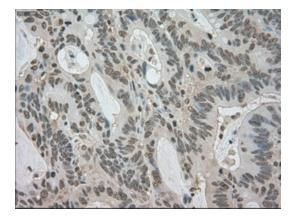

Product images:

HEK293T cells were transfected with the pCMV6-ENTRY control (Cat# [PS100001], Left lane) or pCMV6-ENTRY LDHA (Cat# [RC209378], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-LDHA(Cat# [TA500531]). Positive lysates [LY401712] (100ug) and [LC401712] (20ug) can be purchased separately from OriGene.

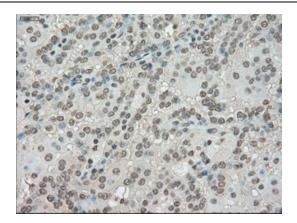

Immunohistochemical staining of paraffinembedded Adenocarcinoma of Human breast tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

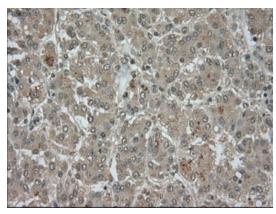

Immunohistochemical staining of paraffinembedded Adenocarcinoma of Human colon tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

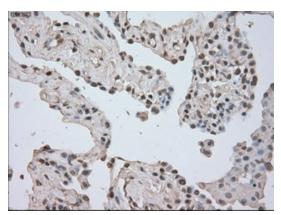

Immunohistochemical staining of paraffinembedded Carcinoma of Human kidney tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

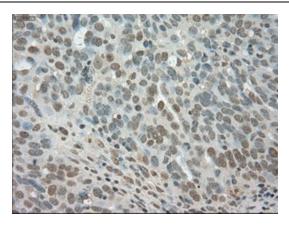

Immunohistochemical staining of paraffinembedded Carcinoma of Human liver tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

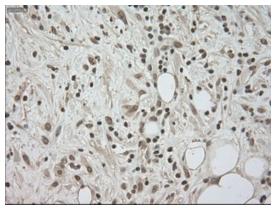

Immunohistochemical staining of paraffinembedded Carcinoma of Human lung tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

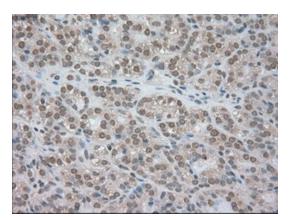

Immunohistochemical staining of paraffinembedded Adenocarcinoma of Human ovary tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

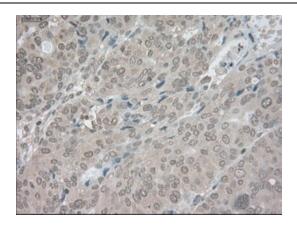

Immunohistochemical staining of paraffinembedded Carcinoma of Human pancreas tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

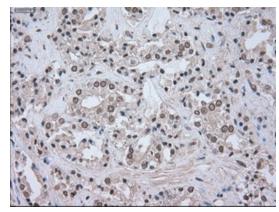

Immunohistochemical staining of paraffinembedded Carcinoma of Human thyroid tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

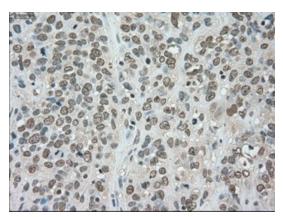

Immunohistochemical staining of paraffinembedded Adenocarcinoma of Human endometrium tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

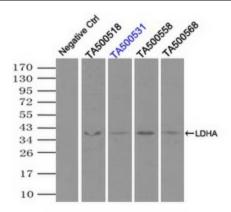

Immunohistochemical staining of paraffinembedded Carcinoma of Human prostate tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

Immunohistochemical staining of paraffinembedded Carcinoma of Human bladder tissue using anti-LDHA mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA500531])

Immunoprecipitation (IP) of LDHA by using TrueMab monoclonal anti-LDHA antibodies (Negative control: IP without adding anti-LDHA antibody.). For each experiment, 500ul of DDK tagged LDHA overexpression lysates (at 1:5 dilution with HEK293T lysate), 2ug of anti-LDHA antibody and 20ul (0.1mg) of goat anti-mouse conjugated magnetic beads were mixed and incubated overnight. After extensive wash to remove any non-specific binding, the immunoprecipitated products were analyzed with rabbit anti-DDK polyclonal antibody.
