# Product datasheet for TA501134M

## DNTTIP1 Mouse Monoclonal Antibody [Clone ID: OTI1E2]

## **Product data:**

| Product Type:           | Primary Antibodies                                                                                                                                                                                         |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Clone Name:             | OTI1E2                                                                                                                                                                                                     |
| Applications:           | IF, IHC, WB                                                                                                                                                                                                |
| Recommended Dilution:   | WB 1:1000, IHC 1:50, IF 1:100                                                                                                                                                                              |
| Reactivity:             | Human, Mouse, Rat                                                                                                                                                                                          |
| Host:                   | Mouse                                                                                                                                                                                                      |
| lsotype:                | lgG1                                                                                                                                                                                                       |
| Clonality:              | Monoclonal                                                                                                                                                                                                 |
| Immunogen:              | Full length human recombinant protein of human DNTTIP1 (NP_443183) produced in<br>HEK293T cell.                                                                                                            |
| Formulation:            | PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.                                                                                                                                       |
| Concentration:          | 0.91 mg/ml                                                                                                                                                                                                 |
| Purification:           | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography<br>(protein A/G)                                                                                               |
| Conjugation:            | Unconjugated                                                                                                                                                                                               |
| Storage:                | Store at -20°C as received.                                                                                                                                                                                |
| Stability:              | Stable for 12 months from date of receipt.                                                                                                                                                                 |
| Predicted Protein Size: | 36.8 kDa                                                                                                                                                                                                   |
| Gene Name:              | deoxynucleotidyltransferase terminal interacting protein 1                                                                                                                                                 |
| Database Link:          | <u>NP_443183</u><br><u>Entrez Gene 76233 MouseEntrez Gene 171437 RatEntrez Gene 116092 Human</u><br><u>Q9H147</u>                                                                                          |
| Background:             | DNTTIP1 binds DNA and enhances the activity of terminal deoxynucleotidyltransferase (TDT, or DNTT; MIM 187410), a DNA polymerase that catalyzes the polymerization of DNA in the absence of a DNA template |
| Synonyms:               | C20orf167; dJ447F3.4; Tdif1                                                                                                                                                                                |

HepG2 HeLa SVT2 A549 COS7 Jurkat MDCK PC12 MCF7

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY DNTTIP1 ([RC206867], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-DNTTIP1. Positive lysates [LY403275] (100ug) and [LC403275] (20ug) can be purchased separately from OriGene.

Western blot analysis of extracts (35ug) from 9 different cell lines by using anti-DNTTIP1 monoclonal antibody (HepG2: human; HeLa: human; SVT2: mouse; A549: human; COS7: monkey; Jurkat: human; MDCK: canine; PC12: rat; MCF7: human) (1:200).

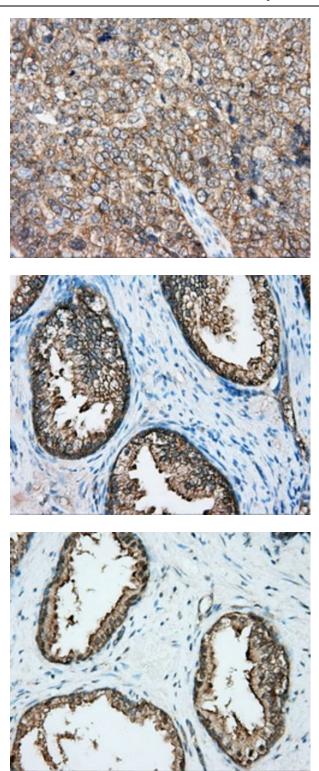

Immunohistochemical staining of paraffinembedded Adenocarcinoma of colon tissue using anti-DNTTIP1 mouse monoclonal antibody. Heatinduced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

Immunohistochemical staining of paraffinembedded Kidney tissue within the normal limits using anti-DNTTIP1 mouse monoclonal antibody. Heat-induced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

Immunohistochemical staining of paraffinembedded liver tissue within the normal limits using anti-DNTTIP1 mouse monoclonal antibody. Heat-induced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

Immunohistochemical staining of paraffinembedded Carcinoma of liver tissue using anti-DNTTIP1 mouse monoclonal antibody. Heatinduced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

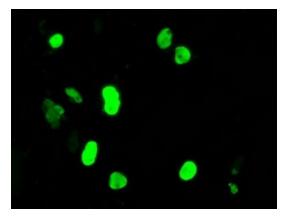

Immunohistochemical staining of paraffinembedded Adenocarcinoma of ovary tissue using anti-DNTTIP1 mouse monoclonal antibody. Heatinduced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

Immunohistochemical staining of paraffinembedded prostate tissue within the normal limits using anti-DNTTIP1 mouse monoclonal antibody. Heat-induced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

Immunohistochemical staining of paraffinembedded Carcinoma of prostate tissue using anti-DNTTIP1 mouse monoclonal antibody. Heatinduced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

Anti-DNTTIP1 mouse monoclonal antibody ([TA501134]) immunofluorescent staining of COS7 cells transiently transfected by pCMV6-ENTRY DNTTIP1 ([RC206867]).
