Product datasheet for TA506453M

p73 (TP73) Mouse Monoclonal Antibody [Clone ID: OTI1B5]

Product data:

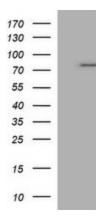

Product Type:	Primary Antibodies
Clone Name:	OTI1B5
Applications:	IF, IHC, WB
Recommended Dilution:	WB 1:4000, IHC 1:150, IF 1:100
Reactivity:	Human, Mouse, Rat
Host:	Mouse
lsotype:	lgG1
Clonality:	Monoclonal
Immunogen:	Human recombinant protein fragment corresponding to amino acids 167-409 of human TP73 (NP_005418) produced in HEK293T cell.
Formulation:	PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.
Concentration:	1 mg/ml
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	69.4 kDa
Gene Name:	tumor protein p73
Database Link:	<u>NP_005418</u> <u>Entrez Gene 362675 RatEntrez Gene 7161 Human</u> <u>O15350</u>

	p73 (TP73) Mouse Monoclonal Antibody [Clone ID: OTI1B5] – TA506453M
Background:	This gene encodes a member of the p53 family of transcription factors involved in cellular responses to stress and development. It maps to a region on chromosome 1p36 that is frequently deleted in neuroblastoma and other tumors, and thought to contain multiple tumor suppressor genes. The demonstration that this gene is monoallelically expressed (likely from the maternal allele), supports the notion that it is a candidate gene for neuroblastoma. Many transcript variants resulting from alternative splicing and/or use of alternate promoters have been found for this gene, but the biological validity and the fullength nature of some variants have not been determined. [provided by RefSeq, Feb
Synonyms:	P73
Protein Families:	Druggable Genome, Transcription Factors
Protein Pathway	s: Neurotrophin signaling pathway, p53 signaling pathway

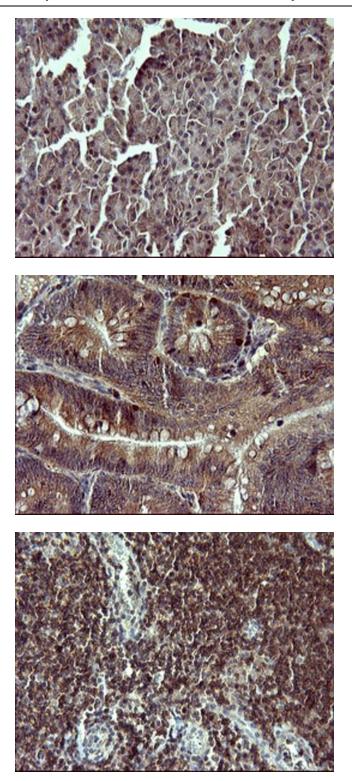

Product images:

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY TP73 ([RC220864], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-TP73. Positive lysates [LY417321] (100ug) and [LC417321] (20ug) can be purchased separately from OriGene.

Western blot analysis of extracts (10ug) from 2 different cell lines by using anti-TP73 monoclonal antibody (1:200).
