

Product datasheet for TA594432S

AAV Rabbit Monoclonal Antibody [Clone ID: OTIR5G1]

Product data:

Product Type: Primary Antibodies Clone Name: OTIR5G1 **Applications:** WB Recommended Dilution: WB 1:2000 Adeno-Associated Virus **Reactivity:** Host: Rabbit Isotype: lgG **Clonality:** Monoclonal Immunogen: AAV capsids **Concentration:** 1 mg/ml **Purification:** Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G) **Conjugation:** Unconjugated Storage: Shipped at -20°C or with ice packs, Upon delivery store at -20°C. Dilute in PBS(pH7.3) if necessary. Stable for 12 months from date of receipt. Avoid repeated freeze-thaws. **Predicted Protein Size:** 100 kD **Background:** AAV vectors are promising delivery tools for human gene therapy. AAV is a single-stranded DNA parvovirus with a 4.7 kb genome composed of the rep and cap genes flanked by inverted terminal repeats (ITRs). The rep gene encodes non-structural proteins involved in viral replication, packaging, and genomic integration, whereas the cap gene codes for structural proteins (VP1, VP2, VP3) that assemble to form the viral capsid, which serves as the viral gene delivery vehicle.
