Product datasheet for TA700549

AMH Biotinylated Rabbit Monoclonal Detection Antibody (Biotin conjugated) [Clone ID: OTIR5C11]

Product data:

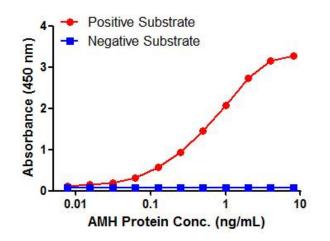

Product Type:	Primary Antibodies
Clone Name:	OTIR5C11
Applications:	ELISA, LMNX
Reactivity:	Human
Host:	Rabbit
lsotype:	lgG
Clonality:	Monoclonal
Immunogen:	Recombinant protein (26-560aa) of human AMH produced in HEK293
Formulation:	PBS (pH7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide
Concentration:	0.5 mg/ml
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Biotin
Storage:	Shipped at -20°C or with ice packs, Upon delivery store at -20°C. Dilute in PBS(pH7.3) if necessary. Stable for 12 months from date of receipt. Avoid repeated freeze-thaws.
Predicted Protein Size:	59.17 kDa
Gene Name:	anti-Mullerian hormone
Database Link:	<u>NP_000470</u> <u>Entrez Gene 268 Human</u> <u>P03971</u>

	AMH Biotinylated Rabbit Monoclonal Detection Antibody (Biotin conjugated) [Clone ID: OTIR5C11] – TA700549
Background:	This gene encodes a secreted ligand of the TGF-beta (transforming growth factor-beta) superfamily of proteins. Ligands of this family bind various TGF-beta receptors leading to recruitment and activation of SMAD family transcription factors that regulate gene expression. The encoded preproprotein is proteolytically processed to generate N- and C-terminal cleavage products that homodimerize and associate to form a biologically active noncovalent complex. This complex binds to the anti-Mullerian hormone receptor type 2 and causes the regression of Mullerian ducts in the male embryo that would otherwise differentiate into the uterus and fallopian tubes. This protein also plays a role in Leydig cell differentiation and function and follicular development in adult females. Mutations in this gene result in persistent Mullerian duct syndrome. [provided by RefSeq, Jul 2016]
Synonyms:	MIF; MIS
Matched ELISA I	Pair: TA600549
Protein Families	: Druggable Genome, Secreted Protein
Protein Pathway	/s: Cytokine-cytokine receptor interaction, TGF-beta signaling pathway
