

Product datasheet for TA800198M

MRPS27 Mouse Monoclonal Antibody [Clone ID: OTI3D9]

Product data:

Product Type:	Primary Antibodies
Clone Name:	OTI3D9
Applications:	FC, IHC, WB
Recommended Dilution:	WB 1:500~2000, IHC 1:150, FLOW 1:100
Reactivity:	Human, Monkey
Host:	Mouse
lsotype:	lgG2b
Clonality:	Monoclonal
Immunogen:	Human recombinant protein fragment corresponding to amino acids 151-414 of human MRPS27 (NP_055899) produced in E.coli.
Formulation:	PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.
Concentration:	1 mg/ml
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	47.4 kDa
Gene Name:	mitochondrial ribosomal protein S27
Database Link:	<u>NP 055899</u>
	<u>Entrez Gene 701585 MonkeyEntrez Gene 23107 Human</u> <u>Q92552</u>

Serigene MRPS27 Mouse Monoclonal Antibody [Clone ID: OTI3D9] – TA800198M

Background: Mammalian mitochondrial ribosomal proteins are encoded by nuclear genes and help in protein synthesis within the mitochondrion. Mitochondrial ribosomes (mitoribosomes) consist of a small 28S subunit and a large 39S subunit. They have an estimated 75% protein to rRNA composition compared to prokaryotic ribosomes, where this ratio is reversed. Another difference between mammalian mitoribosomes and prokaryotic ribosomes is that the latter contain a 5S rRNA. Among different species, the proteins comprising the mitoribosome differ greatly in sequence, and sometimes in biochemical properties, which prevents easy recognition by sequence homology. This gene encodes a 28S subunit protein that may be a functional partner of the death associated protein 3 (DAP3). [provided by RefSeq, Jul 2008]

Synonyms:

MRP-S27; S27mt

Product images:

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY MRPS27 ([RC209478], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-MRPS27. Positive lysates [LY402416] (100ug) and [LC402416] (20ug) can be purchased separately from OriGene.

Western blot analysis of extracts (30ug per lane) from 6 cell lines lysates by using anti-MRPS27 monoclonal antibody ([TA800198], 1:2000).

Events MRPS27 Immunohistochemical staining of paraffinembedded Adenocarcinoma of Human endometrium tissue using anti-MRPS27 mouse monoclonal antibody. Heat-induced epitope retrieval by EDTA solution buffer pH 8.0 at 120°C for 3 min.

HEK293T cells transfected with either [RC209478] overexpress plasmid (Red) or empty vector control plasmid (Blue) were immunostained by anti-MRPS27 antibody ([TA800198]), and then analyzed by flow cytometry.
