Product datasheet for TA803521AM

MSMB Mouse Monoclonal Antibody (Biotin conjugated) [Clone ID: OTI2C11]

Product data:

| Product Type: | Primary Antibodies |
|-------------------------|---|
| Clone Name: | OTI2C11 |
| Applications: | IHC, WB |
| Recommended Dilution: | WB 1:200 - 1:1000 |
| Reactivity: | Human |
| Host: | Mouse |
| lsotype: | lgG1 |
| Clonality: | Monoclonal |
| Immunogen: | Purified prostate specific antigen (MSMB) from human seminal fluid |
| Formulation: | PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide. |
| Concentration: | 0.5 mg/ml |
| Purification: | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G) |
| Conjugation: | Biotin |
| Storage: | Store at -20°C as received. |
| Stability: | Stable for 12 months from date of receipt. |
| Predicted Protein Size: | 10.7 kDa |
| Gene Name: | microseminoprotein, beta- |
| Database Link: | <u>NP 002434</u> <u>Entrez Gene 4477 Human</u> <u>P08118</u> |
| Background: | The protein encoded by this gene is a member of the immunoglobulin binding factor family. It is synthesized by the epithelial cells of the prostate gland and secreted into the seminal plasma. This protein has inhibin-like activity. It may have a role as an autocrine paracrine factor in uterine, breast and other female reproductive tissues. The expression of the encoded protein is found to be decreased in prostate cancer. Two alternatively spliced transcript variants encoding different isoforms are described for this gene. The use of alternate polyadenylation sites has been found for this gene. [provided by RefSeq, Jul 2008] |

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY MSMB ([RC202704], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-MSMB. Positive lysates [LY400872] (100ug) and [LC400872] (20ug) can be purchased separately from OriGene.

Western blot analysis of extracts (10ug) from 2 different cell lines by using anti-MSMB monoclonal antibody at 1:200.

Immunohistochemical staining of paraffinembedded Human prostate tissue within the normal limits using anti-MSMB mouse monoclonal antibody. ([TA803521]) Dilution: 1:150
