# Product datasheet for TA808603M

## ICOS Ligand (ICOSLG) Mouse Monoclonal Antibody [Clone ID: OTI1B8]

### **Product data:**

| Product Type:           | Primary Antibodies                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| Background:             | Ligand for the T-cell-specific cell surface receptor ICOS. Acts as a costimulatory signal for T-<br>cell proliferation and cytokine secretion; induces also B-cell proliferation and differentiation<br>into plasma cells. Could play an important role in mediating local tissue responses to<br>inflammatory conditions, as well as in modulating the secondary immune response by co-<br>stimulating memory T-cell function. [UniProtKB/Swiss-Prot Function] |

#### Serigene ICOS Ligand (ICOSLG) Mouse Monoclonal Antibody [Clone ID: OTI1B8] – TA808603M

B7-H2; B7H2; B7RP-1; B7RP1; CD275; GL50; ICOS-L; ICOSL; LICOS

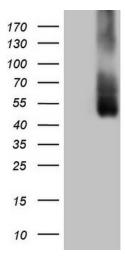

Protein Families: Transmembrane

Protein Pathways:

Synonyms:

Cell adhesion molecules (CAMs)

### **Product images:**

HEK293T cells were transfected with the pCMV6-ENTRY control (Left Iane) or pCMV6-ENTRY ICOSLG ([RC208975], Right Iane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per Iane) were separated by SDS-PAGE and immunoblotted with anti-ICOSLG (1:2000). Positive lysates [LY402420] (100ug) and [LC402420] (20ug) can be purchased separately from OriGene.
