# Product datasheet for TA811196BM

## Septin 3 (SEPT3) Mouse Monoclonal Antibody (HRP conjugated) [Clone ID: OTI3H6]

### **Product data:**

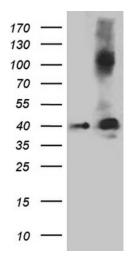

| Product Type:           | Primary Antibodies                                                                                           |
|-------------------------|--------------------------------------------------------------------------------------------------------------|
| Clone Name:             | OTI3H6                                                                                                       |
| Applications:           | IHC, WB                                                                                                      |
| Recommended Dilution:   | WB 1:500~2000, IHC 1:500                                                                                     |
| Reactivity:             | Human, Mouse                                                                                                 |
| Host:                   | Mouse                                                                                                        |
| lsotype:                | lgG2b                                                                                                        |
| Clonality:              | Monoclonal                                                                                                   |
| Immunogen:              | Full length human recombiant protein of human SEPT3 (NP_663786) produced in HEK293T cell.                    |
| Formulation:            | PBS (pH 7.3) containing 1% BSA, 50% glycerol.                                                                |
| Concentration:          | 0.5 mg/ml                                                                                                    |
| Purification:           | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography<br>(protein A/G) |
| Conjugation:            | HRP                                                                                                          |
| Storage:                | Store at -20°C as received.                                                                                  |
| Stability:              | Stable for 12 months from date of receipt.                                                                   |
| Predicted Protein Size: | 40.5 kDa                                                                                                     |
| Gene Name:              | septin 3                                                                                                     |
| Database Link:          | <u>NP_663786</u><br><u>Entrez Gene 24050 MouseEntrez Gene 55964 Human</u><br><u>Q9UH03</u>                   |
| Synonyms:               | bK250D10.3; SEP3                                                                                             |

## **Product images:**

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY SEPT3 ([RC215771], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-SEPT3 (1:2000). Positive lysates [LY403438] (100ug) and [LC403438] (20ug) can be purchased separately from OriGene.

Western blot analysis of extracts (35ug) from 293T cell line and mouse brain tissue lysate by using anti-SEPT3 monoclonal antibody (1:500).

Immunohistochemical staining of paraffinembedded Human embryonic cerebellum within the normal limits using anti-SEPT3 mouse monoclonal antibody. (Heat-induced epitope retrieval by 1mM EDTA in 10mM Tris buffer (pH8.5) at 120°C for 3min, [TA811196]) (1:500)

Immunohistochemical staining of paraffinembedded Human spleen tissue within the normal limits using anti-SEPT3 mouse monoclonal antibody. (Heat-induced epitope retrieval by Tris-EDTA (1:500)
