# Product datasheet for TA812188AM

## Bone marrow stromal cell antigen 1 (BST1) Mouse Monoclonal Antibody (Biotin conjugated) [Clone ID: OTI4E4]

### **Product data:**

| Product Type:           | Primary Antibodies  |  |  |
|-------------------------|---|--|--|
| Clone Name:             | OTI4E4  |  |  |
| Applications:           | WB  |  |  |
| Recommended Dilution:   | WB 1:500  |  |  |
| Reactivity:             | Human   |  |  |
| Host:                   | Mouse   |  |  |
| lsotype:                | lgG1  |  |  |
| Clonality:              | Monoclonal  |  |  |
| Immunogen:              | Human recombinant protein fragment corresponding to amino acids 29-318 of human BST1<br>(NP_004325) produced in E.coli. |  |  |
| Formulation:            | PBS (pH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.  |  |  |
| Concentration:          | 0.5 mg/ml   |  |  |
| Purification:           | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography<br>(protein A/G)            |  |  |
| Conjugation:            | Biotin  |  |  |
| Storage:                | Store at -20°C as received.   |  |  |
| Stability:              | Stable for 12 months from date of receipt.  |  |  |
| Predicted Protein Size: | 35.5 kDa  |  |  |
| Gene Name:              | bone marrow stromal cell antigen 1  |  |  |
| Database Link:          | <u>NP_004325</u><br><u>Entrez Gene 683 Human</u><br><u>Q10588</u>   |  |  |

|                  | Bone marrow stromal cell antigen 1 (BST1) Mouse Monoclonal Antibody (Biotin conjugated)<br>[Clone ID: OTI4E4] – TA812188AM  |
|------------------|---|
| Background:      | Bone marrow stromal cell antigen-1 is a stromal cell line-derived glycosylphosphatidylinositol-<br>anchored molecule that facilitates pre-B-cell growth. The deduced amino acid sequence<br>exhibits 33% similarity with CD38. BST1 expression is enhanced in bone marrow stromal cell<br>lines derived from patients with rheumatoid arthritis. The polyclonal B-cell abnormalities in<br>rheumatoid arthritis may be, at least in part, attributed to BST1 overexpression in the stromal<br>cell population. [provided by RefSeq, Jul 2008] |
| Synonyms:        | CD157   |
| Protein Families | : Transmembrane   |
| Protein Pathwa   | <b>/s:</b> Calcium signaling pathway, Metabolic pathways, Nicotinate and nicotinamide metabolism  |

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY BST1 ([RC204151], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-BST1. Positive lysates [LY418052] (100ug) and [LC418052] (20ug) can be purchased separately from OriGene.

alonal Antikash. (Diatin asultumated)
