## Product datasheet for TL300010V

## ZSWIM2 Human shRNA Lentiviral Particle (Locus ID 151112)

## **Product data:**

SWIM2 Human shRNA Lentiviral Particle (Locus ID 151112) 51112 IEX; ZZZ2 GFP-C-shLenti (TR30023)
IEX; ZZZ2 GFP-C-shLenti (TR30023)
GFP-C-shLenti (TR30023)
antiviral narticlas
entiviral particles
SWIM2 - Human shRNA lentiviral particles (4 unique 29mer target-specific shRNA, 1 cramble control), 0.5 ml each, >10^7 TU/ml.
IM 182521, NM 182521.1, NM 182521.2, BC031094, BC031094.1
<u>18NEG5</u>
3 ubiquitin-protein ligase involved in the regulation of Fas-, DR3- and DR4-mediated poptosis. Functions in conjunction with the UBE2D1, UBE2D3 and UBE2E1 E2 ubiquitin- onjugating enzymes.[UniProtKB/Swiss-Prot Function]
hese shRNA constructs were designed against multiple splice variants at this gene locus. To e certain that your variant of interest is targeted, please contact <u>techsupport@origene.com</u> . you need a special design or shRNA sequence, please utilize our <u>custom shRNA service</u> .
PriGene guarantees that the sequences in the shRNA expression cassettes are verified to porrespond to the target gene with 100% identity. One of the four constructs at minimum are uaranteed to produce 70% or more gene expression knock-down provided a minimum ransfection efficiency of 80% is achieved. Western Blot data is recommended over qPCR to valuate the silencing effect of the shRNA constructs 72 hrs post transfection. To properly ssess knockdown, the gene expression level from the included scramble control vector must e used in comparison with the target-specific shRNA transfected samples. or non-conforming shRNA, requests for replacement product must be made within ninety 20) days from the date of delivery of the shRNA kit. To arrange for a free replacement with ewly designed constructs, please contact Technical Services at techsupport@origene.com. lease provide your data indicating the transfection efficiency and measurement of gene xpression knockdown compared to the scrambled shRNA control (Western Blot data
