ERP29 (NM_006817) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins

Description: Recombinant protein of human endoplasmic reticulum protein 29 (ERP29), transcript variant

1, 1 mg

Species: Human
Expression Host: HEK293T

Expression cDNA Clone >RC210918 protein sequence or AA Sequence: Red=Cloning site Green=Tags(s)

TRTRPLEQKLISEEDLAANDILDYKDDDDKV

Tag: C-Myc/DDK

Predicted MW: 25.8 kDa

Concentration: >0.05 µg/µL as determined by microplate BCA method

Purity: > 80% as determined by SDS-PAGE and Coomassie blue staining

Buffer: 25 mM Tris-HCl, 100 mM glycine, pH 7.3, 10% glycerol

Preparation: Recombinant protein was captured through anti-DDK affinity column followed by

conventional chromatography steps.

Note: For testing in cell culture applications, please filter before use. Note that you may experience

some loss of protein during the filtration process.

Storage: Store at -80°C.

Stability: Stable for 12 months from the date of receipt of the product under proper storage and

handling conditions. Avoid repeated freeze-thaw cycles.

RefSeq: NP 006808

Locus ID: 10961

ERP29 (NM_006817) Human Recombinant Protein - TP310918L

 UniProt ID:
 P30040

 RefSeq Size:
 1472

Cytogenetics: 12q24.13

RefSeq ORF: 783

Synonyms: C12orf8; ERp28; ERp31; HEL-S-107; PDI-DB; PDIA9

Summary: This gene encodes a protein which localizes to the lumen of the endoplasmic reticulum (ER). It

is a member of the protein disulfide isomerase (PDI) protein family but lacks an active

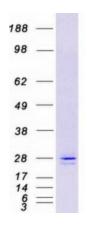

thioredoxin motif, suggesting that this protein does not function as a disulfide isomerase. The canonical protein dimerizes and is thought to play a role in the processing of secretory

proteins within the ER. Alternative splicing results in multiple transcript variants encoding

different isoforms. [provided by RefSeq, Dec 2016]

Protein Families: Transmembrane

Product images:

Coomassie blue staining of purified ERP29 protein (Cat# [TP310918]). The protein was produced from HEK293T cells transfected with ERP29 cDNA clone (Cat# [RC210918]) using MegaTran 2.0 (Cat# [TT210002]).
