## Dystrobrevin alpha (DTNA) (NM\_001390) Human Recombinant Protein

**Product data:** 

**Product Type:** Recombinant Proteins

**Description:** Recombinant protein of human dystrobrevin, alpha (DTNA), transcript variant 1, 1 mg

Species: Human Expression Host: HEK293T

Expression cDNA >RC221162 representing NM\_001390
Clone or AA Red=Cloning site Green=Tags(s)
Sequence:

**TRTRPL**EQKLISEEDLAANDILDYKDDDDK**V** 

Tag: C-Myc/DDK
Predicted MW: 83.7 kDa

Concentration: >0.05 µg/µL as determined by microplate BCA method

**Purity:** > 80% as determined by SDS-PAGE and Coomassie blue staining

**Buffer:** 25 mM Tris-HCl, 100 mM glycine, pH 7.3, 10% glycerol

**Preparation:** Recombinant protein was captured through anti-DDK affinity column followed by conventional

chromatography steps.

**Note:** For testing in cell culture applications, please filter before use. Note that you may experience

some loss of protein during the filtration process.

Storage: Store at -80°C.

#### Dystrobrevin alpha (DTNA) (NM\_001390) Human Recombinant Protein - TP321162L

Stability: Stable for 12 months from the date of receipt of the product under proper storage and handling

conditions. Avoid repeated freeze-thaw cycles.

**RefSeq:** NP 001381

 Locus ID:
 1837

 UniProt ID:
 Q9Y4J8

 RefSeq Size:
 6358

 Cytogenetics:
 18q12.1

 RefSeq ORF:
 2229

Synonyms: D18S892E; DRP3; DTN; DTN-A; LVNC1

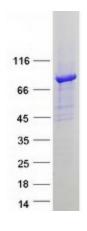

**Summary:** The protein encoded by this gene belongs to the dystrobrevin subfamily of the dystrophin family.

This protein is a component of the dystrophin-associated protein complex (DPC), which consists of dystrophin and several integral and peripheral membrane proteins, including dystroglycans, sarcoglycans, syntrophins and alpha- and beta-dystrobrevin. The DPC localizes to the sarcolemma and its disruption is associated with various forms of muscular dystrophy. Mutations in this gene are associated with left ventricular noncompaction with congenital heart defects. Multiple alternatively spliced transcript variants encoding different isoforms have been identified for this

gene. [provided by RefSeq, Jul 2008]

**Protein Families:** Druggable Genome

## **Product images:**

Coomassie blue staining of purified DTNA protein (Cat# [TP321162]). The protein was produced from HEK293T cells transfected with DTNA cDNA clone (Cat# [RC221162]) using MegaTran 2.0 (Cat# [TT210002]).
