

## Product datasheet for **TP500861**

### Fam136a (NM\_025591) Mouse Recombinant Protein

#### Product data:

|                                       |                                                                                                                                                              |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Type:                         | Recombinant Proteins                                                                                                                                         |
| Description:                          | Purified recombinant protein of Mouse family with sequence similarity 136, member A (Fam136a), with C-terminal MYC/DDK tag, expressed in HEK293T cells, 20ug |
| Species:                              | Mouse                                                                                                                                                        |
| Expression Host:                      | HEK293T                                                                                                                                                      |
| Expression cDNA Clone or AA Sequence: | A DNA sequence from Mouse cDNA ORF Clone, MR200861, encoding Mouse full-length Fam136a.                                                                      |
| Tag:                                  | C-MYC/DDK                                                                                                                                                    |
| Predicted MW:                         | 16.1 kDa                                                                                                                                                     |
| Concentration:                        | >0.05 µg/µL as determined by microplate BCA method                                                                                                           |
| Purity:                               | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                  |
| Buffer:                               | 25 mM Tris-HCl, 100 mM glycine, pH 7.3, 10% glycerol                                                                                                         |
| Note:                                 | For testing in cell culture applications, please filter before use. Note that you may experience some loss of protein during the filtration process.         |
| Storage:                              | Store at -80°C after receiving vials.                                                                                                                        |
| Stability:                            | Stable for 12 months from the date of receipt of the product under proper storage and handling conditions. Avoid repeated freeze-thaw cycles.                |
| RefSeq:                               | <a href="#">NP_079867</a>                                                                                                                                    |
| Locus ID:                             | 66488                                                                                                                                                        |
| UniProt ID:                           | <a href="#">Q9CR98</a>                                                                                                                                       |
| RefSeq Size:                          | 1634                                                                                                                                                         |
| Cytogenetics:                         | 6 D1                                                                                                                                                         |
| RefSeq ORF:                           | 414                                                                                                                                                          |
