

Product datasheet for TP701239

CD48 (NM_001778) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins Description: Purified recombinant protein of Human Human CD48 molecule (CD48), Met1-Ser220, with Cterminal His tag, secretory expressed in HEK293 cells, 50ug Species: Human **Expression Host:** HEK293T **Expression cDNA Clone** A DNA sequence from TrueORF clone, RC204849, encoding the region Met1-Ser220 of CD48 or AA Sequence: C-HIS Tag: Predicted MW: 22.98 kDa **Concentration:** >0.05 µg/µL as determined by microplate Bradford method **Purity:** > 80% as determined by SDS-PAGE and Coomassie blue staining **Buffer:** PBS, pH 7.4, 10% glycerol Note: For testing in cell culture applications, please filter before use. Note that you may experience some loss of protein during the filtration process. Storage: Store at -80°C after receiving vials. Stability: Stable for 12 months from the date of receipt of the product under proper storage and handling conditions. Avoid repeated freeze-thaw cycles. **RefSeq:** NP 001769 Locus ID: 962 **UniProt ID:** P09326 **RefSeq Size:** 1155 Cytogenetics: 1q23.3 **RefSeq ORF:** 729 Synonyms: BCM1; BLAST; BLAST1; hCD48; mCD48; MEM-102; SLAMF2

	CD48 (NM_001778) Human Recombinant Protein – TP701239
Summary:	This gene encodes a member of the CD2 subfamily of immunoglobulin-like receptors which includes SLAM (signaling lymphocyte activation molecules) proteins. The encoded protein is found on the surface of lymphocytes and other immune cells, dendritic cells and endothelial cells, and participates in activation and differentiation pathways in these cells. The encoded protein does not have a transmembrane domain, however, but is held at the cell surface by a GPI anchor via a C-terminal domain which maybe cleaved to yield a soluble form of the receptor. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Dec 2011]
Protein Families:	Druggable Genome, Transmembrane
Protein Pathway	s: Natural killer cell mediated cytotoxicity

Product images:

Purified recombinant protein CD48 was analyzed by SDS-PAGE gel and Coomossie Blue Staining.
