

Product datasheet for TP720290L

CXADR (NM_001338) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins Description: Recombinant protein of human coxsackie virus and adenovirus receptor (CXADR) Species: Human **HEK293 Expression Host: Expression cDNA Clone** Leu20-Gly237 or AA Sequence: C-His Tag: Predicted MW: 25.1 kDa **Concentration:** lot specific **Purity:** >95% as determined by SDS-PAGE and Coomassie blue staining **Buffer:** Provided lyophilized from a 0.2 µm filtered solution of 20 mM Tris-HCl, 150 mM NaCl Endotoxin: < 0.1 EU per µg protein as determined by LAL test **Reconstitution Method:** Always centrifuge tubes before opening. Do not mix by vortex or pipetting. Dissolve the lyophilized protein in ddH2O. It is not recommended to reconstitute a concentration less than 100 µg/ml. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Store at -80°C. Storage: Stability: Stable for at least 6 months from date of receipt under proper storage and handling conditions. NP 001329 RefSeq: Locus ID: 1525 **UniProt ID:** P78310 Cytogenetics: 21q21.1 Synonyms: CAR; CAR4/6; HCAR Summary: The protein encoded by this gene is a type I membrane receptor for group B coxsackieviruses and subgroup C adenoviruses. Several transcript variants encoding different isoforms have been found for this gene. Pseudogenes of this gene are found on chromosomes 15, 18, and 21. [provided by RefSeq, May 2011]

CXADR (NM_001338) Human Recombinant Protein – TP720290L

Protein Families: Druggable Genome, Stem cell - Pluripotency, Transmembrane

Protein Pathways: Viral myocarditis
