Sumo 3 (SUMO3) (NM_006936) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins

Description: Recombinant protein of human SMT3 suppressor of mif two 3 homolog 3 (S. cerevisiae)

(SUMO3)

Species: Human
Expression Host: E. coli

Expression cDNA Clone

or AA Sequence:

Met1-Phe103

Tag: N-His

Predicted MW: 13.8 kDa

Concentration: lot specific

Purity: >95% as determined by SDS-PAGE and Coomassie blue staining

Buffer: Lyophilized from a 0.2 um filtered solution of 20mM PB, 150mM NaCl, pH 7.2.

Bioactivity: Specific Activity is greater than 800 pmol/min/µg Activity measured by its ability to cleave a

fluorogenic peptide substrate, Mca-YVADAPK(Dnp)-OH.

Endotoxin: < 0.1 EU per µg protein as determined by LAL test

Reconstitution Method: Always centrifuge tubes before opening. Do not mix by vortex or pipetting. Dissolve the

lyophilized protein in ddH2O. It is not recommended to reconstitute a concentration less than 100 µg/ml. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.

Storage: Lyophilized protein should be stored at < -20°C, though stable at room temperature for 3

weeks. Reconstituted protein solution can be stored at 4-7°C for 2-7 days. Aliquots of

reconstituted samples are stable at < -20°C for 3 months.

Stability: Stable for at least 6 months from date of receipt under proper storage and handling

conditions.

RefSeq: NP 008867

 Locus ID:
 6612

 UniProt ID:
 P55854

 Cytogenetics:
 21q22.3

Synonyms: SMT3A; Smt3B; SMT3H1; SUMO-3

Summary: This gene encodes a member of the small ubiquitin-related modifier (SUMO) family of

eukaryotic proteins. The encoded protein is covalently conjugated to other proteins via a post-translation modification known as sumoylation. Sumoylation may play a role in a wide variety of cellular processes, including nuclear transport, DNA replication and repair, mitosis, transcriptional regulation, and signal transduction. Alternatively spliced transcript variants

encoding distinct proteins have been described. [provided by RefSeq, Feb 2014]
