

Product datasheet for TP720589M

BDNF (NM_170732) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins Description: Purified recombinant protein of Human brain-derived neurotrophic factor (BDNF), transcript variant 2 Species: Human **Expression Host:** E. coli **Expression cDNA Clone** His129-Arg247 or AA Sequence: Tag Free Tag: Predicted MW: 27 kDa **Concentration:** lot specific **Purity:** >95% as determined by SDS-PAGE and Coomassie blue staining **Buffer:** Provided lyophilized from a 0.2 µm filtered solution of 20 mM Tris-HCl, 150 mM NaCl Endotoxin: Endotoxin level is $< 0.1 \text{ ng/}\mu\text{g}$ of protein ($< 1 \text{ EU/}\mu\text{g}$) **Reconstitution Method:** Always centrifuge tubes before opening. Do not mix by vortex or pipetting. Dissolve the lyophilized protein in ddH2O. It is not recommended to reconstitute a concentration less than 100 µg/ml. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Storage: Store at -80°C. Stable for at least 6 months from date of receipt under proper storage and handling Stability: conditions. NP 733928 RefSeq: Locus ID: 627 UniProt ID: P23560, A0A0E3SU01 RefSeq Size: 4125 Cytogenetics: 11p14.1 **RefSeq ORF:** 741 Synonyms: ANON2; BULN2

| | BDNF (NM_170732) Human Recombinant Protein – TP720589M |
|-----------------|---|
| Summary: | This gene encodes a member of the nerve growth factor family of proteins. Alternative splicing results in multiple transcript variants, at least one of which encodes a preproprotein that is proteolytically processed to generate the mature protein. Binding of this protein to its cognate receptor promotes neuronal survival in the adult brain. Expression of this gene is reduced in Alzheimer's, Parkinson's, and Huntington's disease patients. This gene may play a role in the regulation of the stress response and in the biology of mood disorders. [provided by RefSeq, Nov 2015] |
| Protein Familie | s: Adult stem cells, Druggable Genome, Embryonic stem cells, ES Cell Differentiation/IPS, Induced pluripotent stem cells, Secreted Protein, Transmembrane |
| Protein Pathwa | ys: Huntington's disease, MAPK signaling pathway, Neurotrophin signaling pathway |
