## Product datasheet for TP720695

## CLEC4E (NM\_014358) Human Recombinant Protein

## **Product data:**

| Product Type:   | Recombinant Proteins   |
|---|--|
| Description:  | Purified recombinant protein of Human C-type lectin domain family 4, member E (CLEC4E)   |
| Species:  | Human  |
| Expression Host:  | HEK293   |
| Expression cDNA Clone<br>or AA Sequence:                  | Arg41-Leu219   |
| Tag:  | C-His  |
| Predicted MW:   | 21.7 kDa   |
| Concentration:  | lot specific   |
| Purity:   | >95% as determined by SDS-PAGE and Coomassie blue staining   |
| Buffer:   | Provided lyophilized from a 0.2 $\mu$ m filtered solution of 20 mM Tris-HCl, 150 mM NaCl   |
| Endotoxin:  | Endotoxin level is < 0.1 ng/μg of protein (< 1 EU/μg)  |
| Reconstitution Method:                                    | Always centrifuge tubes before opening. Do not mix by vortex or pipetting. Dissolve the lyophilized protein in ddH2O. It is not recommended to reconstitute a concentration less than 100 µg/ml. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. |
| Storage:  | Store at -80°C.  |
| Stability:  | Stable for at least 6 months from date of receipt under proper storage and handling conditions.  |

|                 | CLEC4E (NM_014358) Human Recombinant Protein – TP720695   |
|-----------------|---|
| Summary:        | This gene encodes a member of the C-type lectin/C-type lectin-like domain (CTL/CTLD) superfamily. Members of this family share a common protein fold and have diverse functions, such as cell adhesion, cell-cell signalling, glycoprotein turnover, and roles in inflammation and immune response. The encoded type II transmembrane protein is a downstream target of CCAAT/enhancer binding protein (C/EBP), beta (CEBPB) and may play a role in inflammation. Alternative splice variants have been described but their full-length sequence has not been determined. This gene is closely linked to other CTL/CTLD superfamily members on chromosome 12p13 in the natural killer gene complex region. [provided by RefSeq, Jul 2008] |
| Protein Familie | es: Druggable Genome, Transmembrane   |
