

## Product datasheet for **TP721186XL**

### **KLF6 (NM\_001300) Human Recombinant Protein**

#### **Product data:**

|  |   |
|--|---|
| <b>Product Type:</b>                         | Recombinant Proteins  |
| <b>Description:</b>                          | Purified recombinant protein of Human Kruppel-like factor 6 (KLF6), transcript variant A  |
| <b>Species:</b>                              | Human   |
| <b>Expression Host:</b>                      | E. coli   |
| <b>Expression cDNA Clone or AA Sequence:</b> | Met1-Ser109   |
| <b>Tag:</b>                                  | Tag Free  |
| <b>Predicted MW:</b>                         | 12.6 kDa  |
| <b>Concentration:</b>                        | lot specific  |
| <b>Purity:</b>                               | >95% as determined by SDS-PAGE and Coomassie blue staining  |
| <b>Buffer:</b>                               | Lyophilized from a 0.2 um filtered solution of PBS, pH 7.4.   |
| <b>Endotoxin:</b>                            | Endotoxin level is < 0.1 ng/μg of protein (< 1 EU/μg)   |
| <b>Reconstitution Method:</b>                | Always centrifuge tubes before opening. Do not mix by vortex or pipetting. Dissolve the lyophilized protein in ddH <sub>2</sub> O. It is not recommended to reconstitute a concentration less than 100 μg/ml. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. |
| <b>Storage:</b>                              | Lyophilized protein should be stored at < -20°C, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at 4-7°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.   |
| <b>Stability:</b>                            | Stable for at least 6 months from date of receipt under proper storage and handling conditions.   |
| <b>RefSeq:</b>                               | <u><a href="#">NP_001291</a></u>  |
| <b>Locus ID:</b>                             | 1316  |
| <b>UniProt ID:</b>                           | <u><a href="#">Q99612</a></u>   |
| <b>RefSeq Size:</b>                          | 4679  |
| <b>Cytogenetics:</b>                         | 10p15.2   |
| <b>RefSeq ORF:</b>                           | 849   |
| <b>Synonyms:</b>                             | BCD1; CBA1; COPEB; CPBP; GBF; PAC1; ST12; ZF9   |

- Summary:** This gene encodes a member of the Kruppel-like family of transcription factors. The zinc finger protein is a transcriptional activator, and functions as a tumor suppressor. Multiple transcript variants encoding different isoforms have been found for this gene, some of which are implicated in carcinogenesis. [provided by RefSeq, May 2009]
- Protein Families:** Druggable Genome, ES Cell Differentiation/IPS, Transcription Factors
