

Product datasheet for **TP724759**

Human Recombinant Protein

Product data:

Product Type:	Recombinant Proteins
Description:	Recombinant Mouse Dectin-1 (C-hFc)
Species:	Human
Expression cDNA Clone or AA Sequence:	Phe69-Leu244
Tag:	C-Human Fc
Buffer:	Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4.
Note:	Recombinant Mouse Dectin-1 (C-hFc) is produced by Human Cells. The target gene encoding Phe69-Leu244 is expressed with a C-hFc tag.
Storage:	Lyophilized protein should be stored at < -20°C, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at 4-7°C for 2-5 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Stability:	12 months from date of despatch
RefSeq:	NP_064392.2 Q6QLQ4
Synonyms:	Clec7a;Dectin1
Summary:	Dectin-1 was recently identified as the most important receptor for beta-glucan. It is a type II transmembrane protein which binds beta-1,3 and beta-1,6 glucans, and is expressed on most cells of the innate immune system and has been implicated in phagocytosis as well as killing of fungi by macrophages, neutrophils and dendritic cells. Recognition of beta-glucan by dectin-1 triggers effective immune response, including phagocytosis and proinflammatory factor production, to eliminate infecting fungi, which especially benefits immunocompromised patients against opportunistic fungal infection.
