

Product datasheet for TP724784

CD39 (ENTPD1) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins Description: Recombinant Human Ectonucleoside triphosphate diphosphohydrolase 1/CD39 (C-His) Species: Human **Expression cDNA Clone** T38-M307 or AA Sequence: Tag: C-6His **Buffer:** Supplied as a 0.2 um filtered solution of 2umM Tris, 50umM NaCl, 10% Glycerol, pH8.1 Recombinant Human Ectonucleoside triphosphate diphosphohydrolase 1/CD39 is produced Note: by E.coli. The target gene encoding T38-M307 is expressed with a 6His tag at the C terminus. Stability: 12 months from date of despatch Locus ID: 953 **UniProt ID:** P49961 CD39 is a B lymphocyte cell surface marker that belongs to the GDA1/CD39 NTPase family. It Summary: is expressed predominately on activated lymphoid cells and can also be found in endothelial tissues. In the nervous system, CD39 hydrolyzes ATP and other nucleotides to regulate purinergic neurotransmission. It is associated with the prevention of platelet aggregation by hydrolyzing platelet-activating ADP to AMP. CD39 transgenic mice showed impaired platelet aggregation, prolonged bleeding times, and resistance to systemic thromboembolism.
