

Product datasheet for **TP725494**

TREML1 Human Recombinant Protein

Product data:

Product Type:	Recombinant Proteins
Description:	Recombinant Human TREML1/TLT1 (C-hFc)
Species:	Human
Expression cDNA Clone or AA Sequence:	Gln16-Pro162
Tag:	C-hFc
Buffer:	Lyophilized from a 0.2 um filtered solution of 20mM PB,150mM NaCl,pH7.4
Note:	Recombinant Human TLT1 is produced by our Mammalian expression system and the target gene encoding Gln16-Pro162 is expressed with a Fc tag at the C-terminus.
Stability:	12 months from date of despatch
Locus ID:	340205
UniProt ID:	Q86YW5
Summary:	Human TLT1 is expressed exclusively in megakaryocytes and platelets and when the platelets are activated the expression is increased. This single-pass type 1 membrane protein is a receptor that can play a role in the innate and adaptive immune response.
