

## Product datasheet for **TP726329**

### SLC39A10 Human Recombinant Protein

#### Product data:

|                                       |  |
|---------------------------------------|--|
| Product Type:                         | Recombinant Proteins   |
| Description:                          | Recombinant Human Zinc transporter ZIP10/SLC39A10  |
| Species:                              | Human  |
| Expression cDNA Clone or AA Sequence: | A2-P200  |
| Tag:                                  | C-His  |
| Buffer:                               | Supplied as a 0.2 um filtered solution of PBS, 300mM NaCl, 10%Glycerol, pH7.4  |
| Note:                                 | Recombinant Human Zinc transporter ZIP10/SLC39A10 is produced by E. coli. The target gene encoding A2-P200 is expressed with a His tag at the C-terminus.  |
| Storage:                              | Store at $\leq -70^{\circ}\text{C}$ , stable for 6 months after receipt. Store at $\leq -70^{\circ}\text{C}$ , stable for 3 months under sterile conditions after opening. Please minimize freeze-thaw cycles. |
| Stability:                            | 12 months from date of despatch  |
| Locus ID:                             | 57181  |
| UniProt ID:                           | <a href="#">Q9ULF5</a>   |
| Synonyms:                             | Zinc transporter ZIP10; Solute carrier family 39 member 10; Zrt- and Irt-like protein 10 (ZIP-10); SLC39A10; KIAA1265; ZIP10   |
| Protein Families:                     | Transmembrane  |
