

Product datasheet for **TP726662**

Rhesus Recombinant Protein

Product data:

Product Type:	Recombinant Proteins
Description:	Recombinant Rhesus Macaque TNF RII (C-Fc)
Species:	Rhesus
Expression cDNA Clone or AA Sequence:	Leu23-Asp257
Tag:	C-Fc
Buffer:	Lyophilized from a 0.2 um filtered solution of PBS,pH7.4.
Note:	Recombinant Rhesus macaque Tumor Necrosis Factor Receptor II is produced by our Mammalian expression system and the target gene encoding Leu23-Asp257 is expressed with a Fc tag at the C-terminus.
Stability:	12 months from date of despatch
Summary:	Tumor Necrosis Factor Receptor Superfamily Member 1B (TNFRSF1B) is a member of the Tumor Necrosis Factor Receptor Superfamily. TNFRSF1B contains four TNFR-Cys repeats. TNFRSF1B can be cleaved into the following 2 chains: Tumor necrosis factor receptor superfamily member 1b and membrane form and Tumor necrosis factor-binding protein 2. TNFRSF1B is a receptor with high affinity for TNFSF2/TNF- $\hat{\pm}$ and approximately 5-fold lower affinity for homotrimeric TNFSF1/lymphotoxin- $\hat{\pm}$. TNFRSF1B mediates most of the metabolic effects of TNF- $\hat{\pm}$. TNF- $\hat{\pm}$ -induced apoptosis suggests that it regulates TNF- $\hat{\pm}$ function by antagonizing its biological activity.
