

## Product datasheet for **TP726679**

### Rhesus Recombinant Protein

#### Product data:

<b>Product Type:</b>	Recombinant Proteins
<b>Description:</b>	Recombinant Rhesus Macaque TNF RII (C-6His)
<b>Species:</b>	Rhesus
<b>Expression cDNA Clone or AA Sequence:</b>	Leu23-Asp257
<b>Tag:</b>	C-6His
<b>Buffer:</b>	Lyophilized from a 0.2 um filtered solution of PBS,pH7.4.
<b>Note:</b>	Recombinant Rhesus macaque Tumor Necrosis Factor Receptor II is produced by our Mammalian expression system and the target gene encoding Leu23-Asp257 is expressed with a 6His tag at the C-terminus.
<b>Stability:</b>	12 months from date of despatch
<b>Summary:</b>	Tumor Necrosis Factor Receptor Superfamily Member 1B (TNFRSF1B) is a member of the Tumor Necrosis Factor Receptor Superfamily. TNFRSF1B contains four TNFR-Cys repeats. TNFRSF1B can be cleaved into the following 2 chains: Tumor necrosis factor receptor superfamily member 1b and membrane form and Tumor necrosis factor-binding protein 2. TNFRSF1B is a receptor with high affinity for TNFSF2/TNF- $\hat{\pm}$ and approximately 5-fold lower affinity for homotrimeric TNFSF1/lymphotoxin- $\hat{\pm}$ . TNFRSF1B mediates most of the metabolic effects of TNF- $\hat{\pm}$ . TNF- $\hat{\pm}$ -induced apoptosis suggests that it regulates TNF- $\hat{\pm}$ function by antagonizing its biological activity.
