Product Type:	Recombinant Proteins
Description:	Recombinant Human CD30 (C-mFc)
Species:	Human
Expression cDNA Clone or AA Sequence:	Phe19-Lys379
Tag:	C-mFc
Buffer:	Lyophilized from a 0.2 um filtered solution of 20mM PB, 150mMNaCl, pH7.4.
Note:	Recombinant Human Tumor necrosis factor receptor superfamily member 8 is produced by our Mammalian expression system and the target gene encoding Phe19-Lys379 is expressed with a mFc tag at the C-terminus.
Stability:	12 months from date of despatch
Locus ID:	943
UniProt ID:	<u>P28908</u>
Summary:	CD30, also known as TNFRSF8, is a cell membrane protein of the tumor necrosis factor receptor family, which regulates proliferation/apoptosis and antibody responses. CD30 is expressed by activated, but not by resting, T and B cells. Aberrant expression of CD30 by mastocytosis mast cells and interaction with its ligand CD30L (CD153) appears to play an important role in the pathogenesis and clinical presentation of systemic mastocytosis. CD30 has been considered as a specific diagnostic biomarker of anaplastic large cell lymphoma (ALCL) and classical Hodgkin lymphoma (cHL). CD30 is also a biomarker used for targeted therapy by an antibodyâ€"drug conjugate.

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
