

## **Product datasheet for TP726757**

## **ILDR2 Human Recombinant Protein**

**Product data:** 

**Product Type:** Recombinant Proteins

**Description:** Recombinant Human ILDR2 (C-6His)

Species: Human

**Expression cDNA Clone** 

or AA Sequence:

Leu21-Glu186

Tag: C-6His

**Buffer:** Lyophilized from a 0.2 um filtered solution of PBS, pH7.4.

**Note:** Recombinant Human Immunoglobulin-like Domain-containing Receptor 2 is produced by our

Mammalian expression system and the target gene encoding Leu21-Glu186 is expressed with

a 6His tag at the C-terminus.

Storage: Lyophilized protein should be stored at < -20°C, though stable at room temperature for 3

weeks. Reconstituted protein solution can be stored at 4-7°C for 2-7 days. Aliquots of

reconstituted samples are stable at < -20°C for 3 months.

**Stability:** 12 months from date of despatch

**Locus ID:** 387597 **UniProt ID:** Q71H61

Synonyms: Angulin-3; C1orf32; Dbsm1; DJ782G3.1; ILDR2; immunoglobulin-like domain containing

receptor 2; LISCH-Like

**Summary:** ILDR2 is a member of the B7-like family of proteins that regulate T cell activity, is also a

known endoplasmic reticulum molecule that regulates lipid homeostasis. The human ILDR2 lumenal domain shares a 99% and 98% homology with the mouse and rat respectively. The human gene encoding ILDR2 is located in a region on Chr1q23â€"25 that has been associated with type 2 diabetes. ILDR2 plays critical roles in hepatic clearance of lipoproteins and in lipid homeostasis. ILDR2 regulates human dendritic cells (DC2 cells, a subpopulation of polarized DCs that promotes Th2 differentiation). Recent publications reported that ILDR2 displayed negative regulatory functions on human and mouse T cells in various experimental systems. Fusion protein of ILDR2 lumenal domain with an Fc fragment, displays therapeutic effects in

collagen-induced arthritis (CIA), a mouse model of rheumatoid arthritis (RA). ILDR2

represents a novel B7-like ligand that exerts negative immune modulation via interaction with

a putative counterpart receptor expressed on activated T cells.
