

Product datasheet for **TP727266**

MD1 (LY86) Human Recombinant Protein

Product data:

Product Type:	Recombinant Proteins
Description:	Recombinant Human Lymphocyte Antigen 86/LY86/MD-1 (C-Fc)
Species:	Human
Expression cDNA Clone or AA Sequence:	Gly21-Ser162
Tag:	C-Fc
Buffer:	Lyophilized from a 0.2 um filtered solution of PBS, pH 7.4.
Note:	Recombinant Human Myeloid Differentiation Protein 1/Lymphocyte Antigen 86 is produced by our Mammalian expression system and the target gene encoding Gly21-Ser162 is expressed with a Fc tag at the C-terminus.
Stability:	12 months from date of despatch
Locus ID:	9450
UniProt ID:	O95711
Summary:	LY86 is a protein that in humans is encoded by the LY86 gene, which May cooperate with CD180 and TLR4 to mediate the innate immune response to bacterial lipopolysaccharide (LPS) and cytokine production. Important for efficient CD180 cell surface expression.
