

Product datasheet for TP727283

Eph receptor A4 (EPHA4) Human Recombinant Protein

Product data:

Product Type: Recombinant Proteins Description: Recombinant Human Ephrin A Receptor 4/EphA4 (C-Fc) Species: Human **Expression cDNA Clone** Val20-Thr547 or AA Sequence: Tag: C-Fc **Buffer:** Lyophilized from a 0.2 um filtered solution of 20mM Tris-HCl, 150mM NaCl, pH 8.0. Note: Recombinant Human Ephrin type A receptor 4 is produced by our Mammalian expression system and the target gene encoding Val20-Thr547 is expressed with a Fc tag at the Cterminus. Stability: 12 months from date of despatch Locus ID: 2043 **UniProt ID:** P54764 Summary: Ephrin type-A receptor 4(EPHA4) belongs to the protein kinase superfamily and Ephrin receptor subfamily. EPHA4 contains 1 Eph LBD domain, 2 fibronectin type-III domains, 1 protein kinase domain and 1 SAM domain. EPH and EPH-related receptors have been implicated in mediating developmental events, particularly in the nervous system. Receptors in the EPH subfamily typically have a single kinase domain and an extracellular region containing a Cys-rich domain and 2 fibronectin type III repeats. The ephrin receptors are divided into 2 groups based on the similarity of their extracellular domain sequences and their affinities for binding ephrin-A and ephrin-B ligands.

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
