

## Product datasheet for **TP727391**

### Flt3l Mouse Recombinant Protein

#### Product data:

Product Type:	Recombinant Proteins
Description:	Recombinant Mouse Fms-Like Tyrosine Kinase 3 Ligand/FLT3LG (C-Fc)
Species:	Mouse
Expression cDNA Clone or AA Sequence:	Gly27-Arg188
Tag:	C-Fc
Buffer:	Lyophilized from a 0.2 um filtered solution of PBS, pH 7.4.
Note:	Recombinant Mouse Fms-like Tyrosine Kinase 3 Ligand is produced by our Mammalian expression system and the target gene encoding Gly27-Arg188 is expressed with a Fc tag at the C-terminus.
Stability:	12 months from date of despatch
Locus ID:	14256
UniProt ID:	<a href="#">P49772</a>
Summary:	Fms-related tyrosine kinase 3 ligand(Flt3L) is a single-pass type I membrane protein and consists of 232 amino acids. Flt3L is a hematopoietic four helical bundle cytokine, structurally homologous to stem cell factor and colony stimulating factor. Flt3L synergizes well with a number of other colony stimulating factors and interleukins. Flt3L stimulates the proliferation and differentiation of various blood cell progenitors by activating FLT3.
