

## Product datasheet for **TS414932**

### L Kynurenine Hydrolase (KYNU) CytoSection

#### Product data:

|                                       |   |
|---------------------------------------|---|
| Product Type:                         | CytoSections  |
| Description:                          | Transient overexpression of KYNU, transcript variant 1, in HEK293T cells, FFPE control for IHC, ICC and ISH staining, 5 slides per pack   |
| Species:                              | Human   |
| Expression Host:                      | HEK293T   |
| Expression cDNA Clone or AA Sequence: | TrueORF Clone RC214932  |
| Tag:                                  | C-MYC/DDK   |
| Detection Antibodies:                 | DDK Rabbit monoclonal antibody, recognizing both N- and C-terminal tags (TA592569)  |
| Target Detection Antibodies:          | L Kynurenine Hydrolase (KYNU) Mouse Monoclonal Antibody [Clone ID: OTI1H1] (TA803959)   |
| ACCN:                                 | <a href="#">NM_003937</a> , <a href="#">NP_003928</a>   |
| Synonyms:                             | KYNUU; VCRL2  |
| Storage:                              | Room Temperature  |
| Stability:                            | Slides are guaranteed for a year from the date of receipt if proper storage instructions were followed.   |
| Preparation:                          | HEK293T cells were transiently transfected with TrueORF cDNA plasmid. Transfected cells were cultured for 48hrs. After harvesting, the cultured cells were fixed in formalin & dehydrated before embedding in paraffin. 5 µm sections of the FFPE cell pellet blocks are cut and mounted on positively charged SuperFrost slides. |
| Note:                                 | This product is for research use only and is not approved for use in humans or in clinical diagnosis.   |
| RefSeq:                               | <a href="#">NP_003928</a>   |
| Locus ID:                             | 8942  |
| Cytogenetics:                         | 2q22.2  |
| Protein Families:                     | Protease  |
| Protein Pathways:                     | Metabolic pathways, Tryptophan metabolism   |
