| Product Type:                            | CytoSections  |
|--|---|
| Description:                             | Transient overexpression of PTPN11 in HEK293T cells, FFPE control for IHC, ICC and ISH staining, 25 slides per pack   |
| Species:                                 | Human   |
| Expression Host:                         | HEK293T   |
| Expression cDNA Clone<br>or AA Sequence: | TrueORF Clone RC220029  |
| Tag:                                     | C-MYC/DDK   |
| <b>Detection Antibodies:</b>             | DDK Rabbit monoclonal antibody, recognizing both N- and C-terminal tags (TA592569)  |
| Target Detection<br>Antibodies:          | SHP2 (PTPN11) Mouse Monoclonal Antibody [Clone ID: OTI1F7] (TA501914)   |
| ACCN:                                    | <u>NM 002834, NP 002825</u>   |
| Synonyms:                                | BPTP3; CFC; JMML; METCDS; NS1; PTP-1D; PTP2C; SH-PTP2; SH-PTP3; SHP2  |
| Storage:                                 | Room Temperature  |
| Stability:                               | Slides are guaranteed for a year from the date of receipt if proper storage instructions were followed.   |
| Preparation:                             | HEK293T cells were transiently transfected with TrueORF cDNA plasmid. Transfected cells were cultured for 48hrs. After harvesting, the cultured cells were fixed in formalin & dehydrated before embedding in paraffin. 5 μm sections of the FFPE cell pellet blocks are cut and mounted on positively charged SuperFrost slides. |
| Note:                                    | This product is for research use only and is not approved for use in humans or in clinical diagnosis.   |
| RefSeq:                                  | <u>NP 002825</u>  |
| Locus ID:                                | 5781  |
| Cytogenetics:                            | 12q24.13  |
| Protein Families:                        | Druggable Genome, Phosphatase   |
